Blasting Halts Traffic

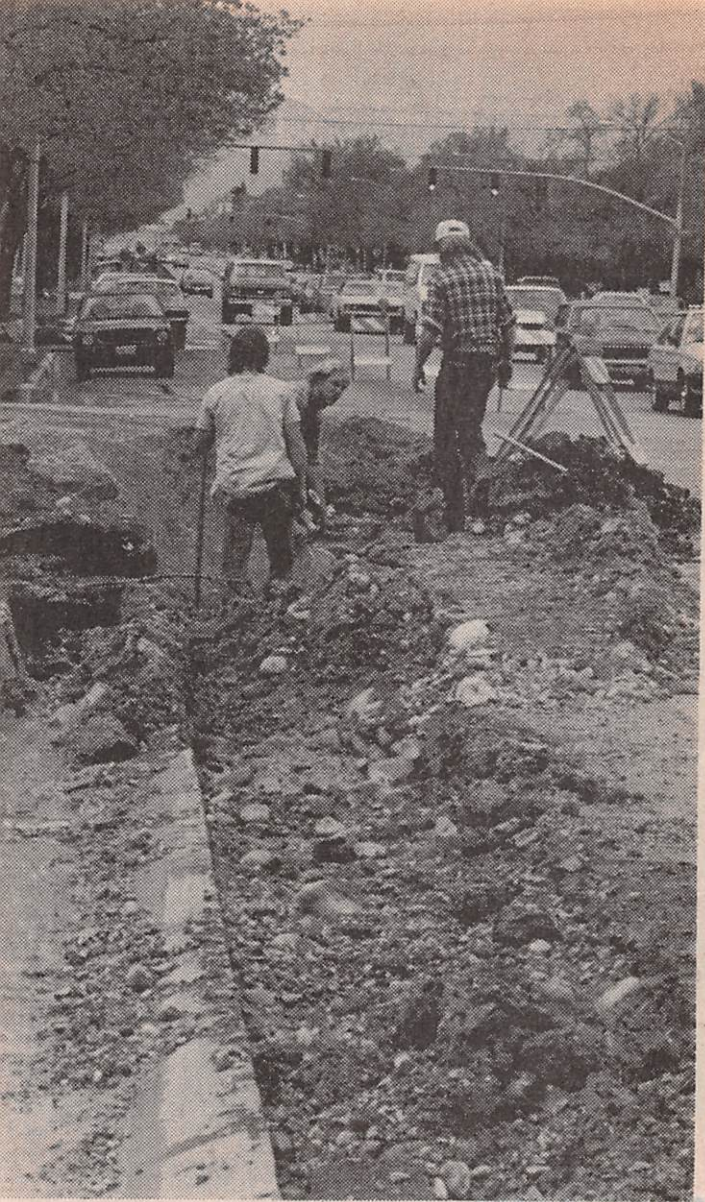

Herald 4 May

Workers blocked State Road 189 through Provo Canyon this morning for more than ~~two~~ *five* hours as crews worked to remove debris after workers blasted part of the canyon as part of the project to widen the road.

The blast had been scheduled to take place Thursday but was postponed until 9 a.m. this

morning. The section of canyon wall blown away was located near the Orem 800 N. intersection with the canyon road.

Work will continue throughout the summer and according to UDOT officials there will be more delays with some lasting several minutes to one or two hours.

to a snails pace on north University Ave. during peak hours.
